Judging

A. Categories

1. A **float** is any fully decorated structure or vehicle that depicts the parade theme.
 - Each float must be decorated over 90% or more of the unit, including truck cab or tow vehicle.
 - Floats are judged on design, including balance, artistic imagination, and the effectiveness of color combinations.
 - Materials and workmanship are considered, as well as the presentation of the parade theme and overall appeal.
 - The manner of propulsion (i.e. towing vehicle, self-propelled) is regarded as part of the float's appeal, as well as the personnel and costuming that enhance its presentation.
2. A **decorated auto** is a vehicle that is less than 90% decorated and does not depict the parade theme.

(Please see above for float description as many confuse these two categories. Only those entries meeting the definition of a float will be eligible for judging in the float contest.
